

### REMARKS

In response to the Restriction Requirement of July 11, 2006, Applicants hereby elect Invention II, corresponding to Claims 28-36, drawn to a conductor structure, classified in class 174, subclass 253+. Applicants have canceled Invention I, corresponding to 1-5, drawn to a conductor structure, classified in class 174, subclass 250. This cancellation is being made without prejudice to the filing of one or more divisional applications for these claims.

Applicants are not traversing the restriction requirement, because Applicants agree that unpatentability of Invention II would not necessarily imply unpatentability of Invention I.

The title has been changed to conform to cancellation of Claims 1-5.

In view of the above, Applicants respectfully request favorable examination and allowance of Claims 28-36.

Respectfully submitted,

Mitchell S. Bigel
